

# HAN MIN NAING,

## Associate ASEAN Engineer

Electrical Engineer | Bangkok, Thailand |  
Open to International Relocation

hanminnaing23@gmail.com | +66811288331 (WhatsApp) |  
www.linkedin.com/in/han-m-n-2b8479124

Availability: Immediate | Portfolio: <https://bit.ly/HanMinNaing-Portfolio>  
Expected Salary: Negotiable

## KEY ACHIEVEMENTS

- **19 MW** live load commissioned
- **ST Telemedia DC** (Phases 2–5) | **\$141M+**
- **100% On-Time, Snag-Free Handover**
- **200+ Commercial & Hospitality Projects** designed to NEC & CEC standards
- **20–35% energy savings** achieved via **AGi32 & DIALux** photometric optimization
- **7-Day Turnaround** for full electrical design of a 200-room, 5-storey hotel
- **Zero Major Design Clashes** maintained over 7+ years of MEP coordination and inter-disciplinary review

## TECHNICAL SKILLS

- **Data Centre Commissioning:** L1–L5, IST, SAT, Load Bank
- **MV/LV Switchgear:** HVSB/RMU & ELV Systems
- **UPS & Generators:** Backup Power Systems & Gen Sync Panels
- **Fire Suppression & Detection:** N<sub>2</sub>, VESDA/ASD, Pre-action
- **BMS & SCADA:** Alarm Verification & Field Signal Mapping
- **Design Software:** AutoCAD (7+ Yrs), Revit MEP (Trained), AGi32 & DIALux
- **Codes & Standards:** TIA-942, SS CP, NEC, IECC | Knowledge of **IEC & IEEE**
- **Operations:** Access/CCTV, Lighting Controls, QA/QC & Snag-list Management

## CERTIFICATIONS

- **Associate ASEAN Engineer**, AFEO | 2015
- **Electrical Inspection (EI)**, Grade-2 | 2015
- **Dip. Project Management**, ICM UK | 2019

## PROFESSIONAL SUMMARY

**Data Centre Commissioning Engineer** and **Registered Associate ASEAN Engineer** with nearly **3 years** of specialized **Level 1–5 commissioning** experience on **ST Telemedia Global Data Centres** (**19 MW** total capacity). Registered **AAE** with a **7+ year** background in electrical design and site engineering. **Proficient in NEC, CEC, and SS CP standards**, having delivered **200+ projects** ranging from high-rise residential to commercial hospitality. Proven track record in providing **clash-free MEP designs** and executing complex **BMS/SCADA alarm verification**. **Immediately available for relocation/engagement.**

## PROFESSIONAL EXPERIENCE

### COMMISSIONING ENGINEER (ELECTRICAL & FIRE ALARM) (Cx Engineer)

GCS-ACME ASSOCIATES JV COMPANY LIMITED 📍 Thailand, Bangkok Mar 2023 – Present

Duties and Responsibilities,

- **Executed Level 1–5 commissioning for 19 MW total capacity** (Phases 2–5) of a **Tier III/IV hyperscale facility** – delivered 100% on-time, snag-free handover
- **Performed IST (Integrated System Testing) and Load Bank Testing** in coordination with the **BMS system**, covering **>80% of electrical & ELV systems** and compiling all technical results.
- **Led fire suppression & detection testing (Pre-action, N<sub>2</sub>, VESDA/ASD)** with **BMS alarm verification** – verified activation/abort sequences across **active, sandwich, and whole-building floors** to ensure field signals matched the **BMS/SCADA system**
- **Facilitated daily commissioning activity meetings**, including equipment pre-start-up and start-up procedures, and reported technical progress to Senior Engineer/Management
- **Verified functional tests** for critical systems: electrical distribution, **UPS**, standby generators, **Fire Alarm**, CCTV, and Access Control systems
- **Troubleshooted and resolved 90%+ of electrical and fire-system issues** during commissioning to ensure 100% system functionality and eliminate critical path delays
- **Maintained 100% safety and QA/QC compliance** throughout pre-start-up, start-up, and handover for the **\$141M+ project**, meeting international data centre standards

#### Key Projects:

- **ST Telemedia GDC, BKK (Phases 2 & 3):** 8 MW (4+4 MW) | **\$61M+ Value** | 2023 – 2024
- **ST Telemedia GDC, BKK (Phases 4 & 5):** 11 MW (9+2 MW) | **\$80M+ Value** | 2024 – 2025

## EDUCATION

### BACHELOR OF ENGINEERING

**(ELECTRICAL POWER)** 2008 - 2013

Government Technological College, Shwe Bo

(Affiliated with Mandalay Technological University)

CGPA : 4.74/ 5.0

## LANGUAGES

- English (Proficient)
- Thai (Basic)
- Burmese (Native)

## PROFESSIONAL EXPERIENCE (continued)

### ELECTRICAL DESIGNER

MEP Green Design & Build, Myanmar Ltd.

📍 Myanmar, Yangon

Oct 2015 – Mar 2023

#### (US Projects)

Duties and Responsibilities,

- **Designed complete MV/LV Power, ELV, and Fire Alarm systems for 200+ commercial projects** (hotels, schools, clinics, and gas stations) in strict accordance with **NEC, NFPA, and IBC** standards
- **Delivered 20–35% energy savings** on car-park and external lighting through **AGi32 & DIALux** photometric verification and optimization of architect layouts
- **Produced full AutoCAD design packages**, including single-line diagrams, load schedules, voltage drop/short-circuit calculations, lightning protection, **EVCS**, solar, and transformer & genset sizing
- **Completed entire electrical design for a 200-room, 5-story hotel in only 7 days** with zero major revisions, demonstrating high-speed delivery and technical accuracy for **US market deadlines**
- **Implemented RFI process** and submitted technical solutions to owners, incorporating city and franchise comments to achieve **zero major site clashes** across all projects
- **Performed QA/QC review** of team drawings and calculations, ensuring full compliance with **NEC, CEC, NFPA, and IBC**

#### Key Projects:

- **Try by Hilton** San Juan, Puerto Rico (2023)
- **Fairfield Inn** Foley, AL (2022)
- **La Quinta (The Rim)**, San Antonio, TX (2022)
- **Holiday Inn Express**. MacClenny, FL (2021)
- **TRU by Hilton**, Chesapeake, VA (2021)
- **Grand Wynn Hotel**, Mandalay (2020)
- **Home2Suites** Shawnee, OK (2020)
- **Cambria** Santa Clara, CA (2019)
- **Springhill Suites**, Fremont, CA (2018)
- **Holiday Inn Express** Taylor, TX (2017)
- **Holiday Inn Express** El Paso, TX (2016)
- **Dual Hotel**, Lynchburg, VA (2016)

### M&E SITE ENGINEER

Capital Construction Ltd,

📍 Myanmar, Yangon

Jan 2014 – Oct 2015

(HOA BINH CONSTRUCTION GROUP Joint operating Team)

Duties and Responsibilities,

- **Supervised electrical installation and testing**, managing technicians, subcontractors, and material planning to ensure all works met **SS CP** specifications
- **Performed Megger, continuity, and insulation resistance testing** to verify 100% technical compliance with SS CP safety standards prior to project handover
- **Maintained a zero-accident record and 100% safety compliance** on-site by enforcing strict PPE protocols and conducting daily toolbox talks for subcontractors
- **Achieved on-time completion with zero major defects** through daily site monitoring and rigorous QA/QC enforcement of electrical and ELV systems

#### Key Project:

- **GEMS Garden Condominiums (Phases 1 & 4):** 21-Story Luxury Residences | 2014 – 2015
